

Markus Schatz live

techrider (set up and premises)

1. **Table Approx.** 100 cm wide and 60 cm deep. It has to be dry, clean and save. No parking space for drinks!

2. **Space next to live set up for the following equipment brought with by Markus Schatz:**

Laptop“ MacBook or Pro, Motu Ultralight (Sound-card), Allen & Heath ZED 14 (14 channel mixer) or APC40 and some cables. The ZED 14 mixer has to be connected to a free Line-channel of the DJ mixer and the monitoring must be controlled from the DJ mixer(2 XLR cables for the ZED 14 master out to the dj mixer have to be there).

3. **Two free Power-plug are required!** If there is any other voltage system (e.g. 110V) or power connection system, a voltage transformer or power-adaptor has to be there.

4. One or two **high powered monitors** next to the position

5. The **sound-check** has to be minimum 2 hours before the club is open. The sound engineer of the club has to be there.
